SACRAMENTO VALLEY FLOOD

Sacramento, Cal., Jan. 23.—The news from the districts of the Sacramento and Selano counties last night is the most discouraging received since the first flood waves swept down the valley. Various reports show that the situation is worse than at any time this season. The water has risen slowly and is near the tops of the levees of the upper part of Sherman island; Ryer island in Solano, and Brannan island which joins the Whitell (which is now flooded) north. From Courtland, Walnut Grove and Isleton, further up the river the report is much more cheerful and hope strong that Andrus, Tyler, Ransle and Grand Islands in Sacramento county, and Merritt in Yolo, will weather the storm. A new flood wave is com-ing down the Sacramento and will crest here about noon today.
